

# New 2024 Blue Flame Product Program

Canterbury Enterprises

Lisa Leighton – CEO

## Our Mission

Our 70-year-old family business' mission is to preserve and grow the enjoyment and usefulness of fireplaces by creating revolutionary clean and green technology solutions—to continue to develop products to enhance the appearance of fireplaces.

We strive to ensure the American Family tradition of gathering around the hearth, sharing memories and special moments will continue for generations to come.

## About Us

Canterbury Enterprises was established in 1954 and is a family owned business, based out of Corona, CA. The founder of the company, Joe Leighton, invented the first log lighter and gas valve for wood burning fireplaces to ignite firewood with gas. Blue Flame products are a leader in the industry and have been selling for decades to Home Depot, Ace Hardware, True Value, Hearth dealers and distributors throughout the United States and Canada. The Blue Flame name is recognized in the industry and has the safest, high-quality and exclusive products for the consumers.
